

ZD-QJY3.5S Scissor type Wheel Alignment Car lift

Features

- Anti-slip platforms.
 - Secondary scissor lift for wheel free.
 - Equipped with sideslip plates and spaces for turntables for 4-wheel alignment.
 - Mechanical protection device unlocked pneumatically, provides safety and simple operations.
 - Synchronized moving of platforms.
 - Surface or in-ground installation optional.
- Italy original pump station and hydraulic cylinders.

Technical data

First lifting capacity	3500kg	First raising time	≤ 60S
Secondary lifting capacity	3000mm	First lowering time	≤ 50S
First lifting height	1600mm	Secondary raising time	≤ 30S
Secondary lifting height	450mm	Secondary lowering time	≤ 50S
Min. height	330mm	Motor power	3kw
Net weight	1500Kg	Power supply	380v, 220v
