

# ZD-C2600 Tyre Changer

## Features

- Semi-automatic tyre changer for commercial vehicles, trucks and coaches.
- Electro-hydraulic operation system.
- Mobile control unit makes operation easy
- Self-centering chuck: with both automatic and manual control
- Rim clamping spindle can turn in both directions with two different speeds.
- Overhanging bead breaker disk mounted on tapered roller bearings.
- Safety devices guarantee the utmost operator safety.
- Adjustable working pressure of chuck.

ZD-C2600

## Technical data

Model	ZD-C2600
Rim clamping diameter	16"-26"
Max wheel width	800mm
Max. wheel diameter	1600mm
Working pressure	13Mpa
Hydraulic drive unit motor	1.5kw
Geared box motor power	2.2kw
Weight	700kg
Power supply	380v/50Hz, 3Ph
Control voltage	24V, 36V
Chuck rotation speed	7.4rpm
Torque of chuck	2839Nm
Tyre dismantle force	17600N
Movable distance of slider	1200mm
Overall sizes	1970x1490x760 mm
