

ZD-PAINT MIXING ROOM

The latest range of "Zonda" Paint Mixing Rooms is the most advanced yet available in a wide variety of sizes and configurations to meet virtually any need and budget. Safety for you to store the paint and mix the paint.

Construction

Walls and doors are of insulated double paneled construction. The interior and exterior walls are of pre-painted white finish.

Air Intake Filters

The air intake filters are fit in the wall panel at a low level.

Lighting

Sealed light fixtures are fit into the ceiling of the Mixing Room with all electrical connections from outside of the unit.

Personnel Doors

Double paneled, insulated, personnel access door with clear tempered glass window, may be fitted in any desired panel location.

Ventilation (optional)

The customer can add a ventilation fan mounted onto the roof, the fan should meet local safety requirements.

Electrical Controls

All electrical controls and connections are located outside the Mixing Room.
